Various Forms Of Headache

"It is necessary in order to treat headaches properly to understand the causes
which produce the affection" says Dr. J. W.
Ray, of Hiockton, Ala. Continuing, he says.
"Physicians cannot even hearn the treatment of a disease without knowing what
causes give rise to it, and we must remember that headache is to be treated according to the same rule. We must not only be
particular to give a remedy intended to
counteract the cause which produces the
headache, but we must also give a remedy,
to relieve the pain until the cause of the
trouble has been removed. To answer this
purpose, anti-kammia tablets will be found
a most convenient and satisfactory remedy.
One tablet every one to three hours gives
comfort and rest in the most severe cases
of headache, neurasis and particularly the
headaches of women."

When we have a patient subject to regular
attacks of sick headache, we should caution
hith to keep his howels regular, for which
nothing is better than "actorids," and when
he feets the least eign of an oncoming atlack, he should take two A-K Tablets. Such
patients should always be instructed to
carry a few anti-kammia tablets, so as to
have them ready for instant use. These
tablets are prompt in action and can be
depended on to produce relief in a very
few minutes. Ask for A-K Tablets.
